Re: CP & T Radio Station, Inc. (CPT)
WLRM(AM), Millington, TN
Facility Identification Number: 15670
Special Temporary Authority (STA)
BESTA-20191206ACO

Dear Mr. Westenberger:

This is in reference to the request filed on December 6, 2019. CPT requests a further extension of the STA granted on November 14, 2018, to continue operating ND with reduced power to allow time to complete repairs to the antenna system.¹ In support of the request, CPT stated that additional time is needed to complete repairs (due to flood damage).

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

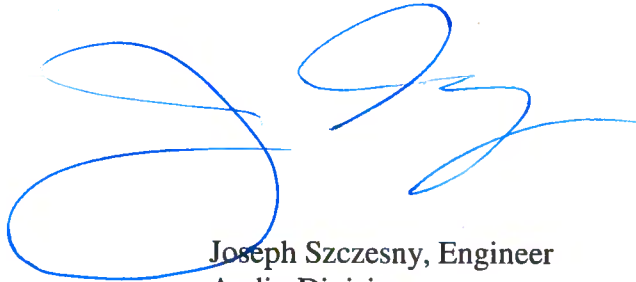

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and CPT may continue to operate ND with a maximum power of 1 kW (day) and 0.009 kW (night). CPT must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR §1.1310. CPT must submit an e-mail to my

¹WLRM(AM) is licensed for DA operation on 1380 kHz with 2.5 kW (day) and 1 kW (night) using different patterns.

attention to certify the date the station resumed licensed operations per BZ-19891127AB (with negligible changes). Otherwise CPT must file an FCC Form 302 application to update all operating parameters.

This authority expires on **June 22, 2020**.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a series of loops and a trailing line.
